Dr. Sahar Rizwan - Physiology
Dr. Aeliya Faiz - Physiology
Dr. Aysha Siddiq - Biochemistry
Ms. Tahira Fatima - Behav. Sci.

Student Representatives

Ubaidullah - 1st Year
Hassan Ahmad - 2nd Year
Ghulam Abbas - 3rd Year
Usman Razzaq - 4th Year
Sharjeel Doltana - Final Year

Ref: 09/SDC/KIMS/2025

Date: July 3rd 2025

Notification

Subject: Awareness Regarding College Research & Development Cell and Research Advisory Committee

With reference to the earlier communication Ref: 05/SDC/KIMS/2025, this is to inform all students that KIMS has established a dedicated Research & Development (R&D) Cell and a Research Advisory Committee to facilitate and promote a structured, ethical, and supportive environment for academic and student research activities.

Key Functions:

- The Research & Development Cell coordinates all institutional research activities, ensures ethical compliance, and facilitates research skill development programs.
- The Research Advisory Committee provides strategic guidance, supervises student and faculty-led research projects, and evaluates proposals for feasibility and ethical soundness.
- Both bodies assist students in research design, proposal writing, data analysis, publication guidance, and overall research mentorship.

The organogram (Annexure-I) of research cell & advisory committee are attached with this notification for better understanding of the hierarchy and flow of assistance.

Students are encouraged to reach out to the committee members for any academic support related to research, thesis, or scholarly publications.

Dr. Farhan Muhammad Qureshi
Chairperson, SDC, KIMS
